## **3 new products**

### **SUN-CLEAN:**

Deep cleaner and rust remover

### **SUN-PROTECT:**

Stainless Steel conditioner/cleaner for preventive use against rust

### **SUN-POLISH:**

Polishing Agent for bringing back the shine to all dull surfaces

**INOX-KIT**

 **Abrasive expert.**

**SUNNER**

## **SUN-CLEAN**

- Thanks to its tensides which loosens the surface tension, SUN-CLEAN is able to reach inside the pores of the stainless steel for deep and effective cleaning action.
- It does not attack the metal and does not affect the oxid-layer
- Ideal for intense cleaning of contaminated surfaces such as for removing rust deposits or tea-stains.
- Consists of 100% organic acids and does not contain any abrasive particles
- It is certainly not a pickling agent
- No harm for human and nature

pH3 - 250ml

## SUN-CLEAN

INOX-KIT

 Abrasive expert.

**SUNNER**

**SUN-CLEAN**  
Usage  
**Verwendung**

- To be used undiluted
- Shake well before use
- Should be applied by use of a sponge
- Damp liquid on surface and clean after short residence time
- Use SUN-PROTECT as 2nd step (not on steel)
- Wear safety gloves

## SUN-PROTECT

- Neutral and mild cleaner. Removes oxides and dirt.
- Very effective when use in combination with SUN-CLEAN
- Leaves a protective nanolayer on the surface for additional protection against future corrosion.
- Supports oxygen flow
- Reduces maintenance costs esp. in areas with delicate air conditions such as indor pools or offshore sites.
- No harm for human and nature

pH6,5 - 250ml

**SUNNER**

## **SUN-POLISH**

**Usage**  
**Verwendung**

- Apply SUN-POLISH on a damp cloth to clean the surface
- Rub the surface with a microfibre-cloth to create a nice glossy finish

## Markets Märkte

- Structural facings / Building maintenance
- Offshore
- Boat industry / Maintenance
- Apparatus industry
- Large-scale kitchens
- Sanitary facilities
- Metal shops
- Artists
- and more..

## **Properties** **Eigenschaften**

- It does not damage the metal
- No material removal
- Simple use
- Nice smell
- Can be used everywhere
- No chemicals
- No danger for human and nature
- Can be used in food and pharmaceutical industry
